Altek Electronics, Inc. Announces Name Change to Cyient DLM Electronics Inc

Torrington, Connecticut – Altek Electronics, Inc., is pleased to share an exciting milestone in our journey. Two years ago, Altek Electronics became a wholly owned subsidiary of Cyient DLM, joining a global organization with expanded capabilities and resources. As the next step in that evolution, our legal name will change to Cyient DLM Electronics Inc, and our market-facing brand will become Cyient DLM, aligning us under a single global identity.

While our name and branding are evolving, our commitment to our customers remains unchanged, with the same trusted relationships, experienced team, and high standards of quality and service you have come to expect.

Quote from Leadership:

"This rebranding marks an important milestone in our journey. After two years as part of the Cyient DLM family, our new name reflects both who we are today and our vision for the future as part of a global organization delivering world-class manufacturing solutions." Jeff Van Stone, General Manager – Operations.

About Cyient DLM Electronics Inc:

Cyient DLM Electronics Inc. is a U.S.-based electronics manufacturing services (EMS) provider specializing in complex printed circuit board assemblies, box builds, cable and harness assemblies, and full product integration solutions.

From our manufacturing facility in Torrington, Connecticut, we support customers across highly regulated and quality-driven industries including medical, industrial, aerospace and defense, telecommunications, and advanced technology markets.

As part of the global Cyient DLM organization since 2024, we combine more than 50 years of manufacturing experience with expanded engineering, supply chain, and manufacturing resources. This allows us to deliver the responsiveness and customer focus our customers have always valued, backed by the scale and capabilities of a global electronics manufacturing partner.
